

AGRIPOOL EXPERT PROFILE

KICK-OFF YOUTH WORKSHOP

Agriterra has developed two workshops focused on youth organisations. Namely, the 'Kick-off Youth workshop' and the 'Youth Council Masterclass'. The workshops will be conducted by a certified trainer, who acts as facilitator together with an Agripool expert, who can illustrate with examples from own experience.

Kick-off Youth workshop

Goal workshop: to create awareness about youth and develop action plans for activities. We bring youth and elder (the future mentors) from different organisations together, to optimise the exchange and start building a network. We exchange ideas and visions on youth participation, look at possibilities and worries, and give as many examples as possible. In the end, the group makes its action plan for youth activities in the coming 6 months.

Profile Agripool expert

- active in an agricultural youth board or council, at e.g., NAJK, FrieslandCampina or Agrico
- understanding of youth participation and knowledge on how to involve youth
- able to provide lively examples from youth projects and activities from own experience
- minimum of five-year farm experience, e.g., be a farmer, work on a farm, or do essential work with young farmers
- age under thirty-five years
- inspirational communicator

Preparations

Besides playing an active role in the whole programme, we will ask you to prepare two presentations, more details can be found in the trainers' manual.

The first presentation is about Dutch farming and Dutch cooperatives to inspire the participants to become active in organising activities and projects with the coop and getting inspired to improve their way of farming. This presentation is set up in three parts: about you, about your organisation, about you and the organisation.

The second presentation is about different (small) projects/activities in which you are involved, which can serve as an example for the participant.
